

WORKSHOP NOTICE: CONSERVATION ELEMENT

The public is invited to a workshop about the upcoming update to the Conservation Element of the County General Plan. County Planning staff will provide an overview of the process and required topics for the plan and then hear from the public on suggested issues or topics that they feel should be addressed in the plan. The updated Conservation Element

will play an important role in guiding land use, resource protection, and conservation measures throughout the unincorporated areas of the County. The careful use, protection and conservation of our resources such as: ground and surface water, agricultural, energy, air quality, endangered animal and plant species, wetlands, streams and historical and prehistoric sites will be determined through the policies established in the Conservation Element.

Attendees at the workshop will have the opportunity to provide input on issues or topics by means of an interactive instant polling technology.

WHEN:	Thursday October 5, 2006 7:00 P.M. – 9:30 P.M.
WHERE:	SLO Library Community Room Corner of Palm and Osos Sts
WHO:	PEOPLE INTERESTED IN THE NATURAL RESOURCES OF OUR COUNTY

We're going paperless!

**In order to conserve natural resources, information regarding the update of the Conservation Element will be done through email and postings on the County Website:
WWW.SLOPLANNING.ORG**

All correspondence and questions may be addressed to James Caruso, Senior Planner at 805-781-5702 or by email at : jcaruso@co.slo.ca.us
